

# Kalcho Mareshki

Hello! My name is **Kalcho Mareshki** and I am a visionary, a dreamer, a graphic designer and most of the time - all of those at the same time.

I am not afraid to make important and responsible decisions. My work ethic allows me take ownership of my actions by learning from everything that happens during the work process. Being a creative person with a great amount of ideas, I have expanded my professional skills and improved myself in every aspect of my life. My goals so far have all been achieved by being persistent and by using every opportunity to grow and improve.

My motto is:

**"Only those who see the invisible can do the impossible."**
